

2019
Rate Guide

Saskatchewan
Municipal Hail
Insurance

2019 Rate Guide

The current basic hail rate can be found next to each land location on the Crop Report form or on the Rate Letter.

Example: If the crop to be insured is Wheat (ref. table 1), Soybeans (ref. table 2), Lentils (ref. table 3), Mustard (ref. table 4).

If the basic rate is 3.0% and full cover is chosen, the charged rate for Wheat will be 3.0%, Soybeans 3.9%, Lentils 4.5% and Mustard 6.0%.

COVERAGE acres x indemnity

*less deductible chosen

Example: 100 x 100 = \$10,000

PREMIUM acres x indemnity x charged rate

Example: 100 acres of Lentils, \$100 indemnity, basic rate 2.4%, 10 straight deductible coverage.

Premium is 100 x 100 x 2.5% = \$250.00

PER ACRE COST premium/number of acres

Example: \$250/100 = \$2.50 per acre

TABLE 1 - BASIC NON-SURCHARGED CROPS

Barley, canary seed, canola, caraway seed, corn (field), coriander, fall rye, flax, kamut, linola, millet, oats, potatoes, safflower, sorghum, speltz, spring rye, sunflowers, sunola, sun wheat, teff, triticale, wheat (all types), and fodder crops grown for feed.

Coverage Options

Full Coverage (FC)

The chargeable rate is 100% of the charged rate. Losses are payable when the adjusted loss is 5% or over. For losses 85% or over, settlement is made as 100%.

10 Straight Deductible (10S)

The chargeable rate is 70% of the full cover rate and losses are paid as adjusted less the deductible of 10. Losses equal to or exceeding 85% will be paid as 90%.

25 Straight Deductible (25S)

The chargeable rate is 50% of the full cover rate and losses are paid as adjusted less the deductible of 25. Losses equal to or exceeding 85% will be paid as 75%.

10 Disappearing Deductible (10D)

The chargeable rate is 90% of the full cover rate. For losses paid, see chart.

20 Disappearing Deductible (20D)

The chargeable rate is 75% of the full cover rate. For losses paid, see chart.
